

Salmonids in the Classroom

October 7, 2010, from 5:00 - 9:00 p.m.
Tulare County Office of Education (Sequoia Room)
7000 W. Doe Avenue, Visalia

- Salmonids in the Classroom is a program that provides a unique learning experience for your classroom when students experience firsthand the importance of aquatic environments, the balance that must be met to preserve California's fisheries, and how their personal actions affect these valuable resources.
- Your classroom will have the opportunity to raise trout from eggs to fry (small fish) and then have the chance to release them into the wild.
- Information for raising fish, lesson plans, and activities for the Salmonids in the Classroom Program will be provided.
- Participants will meet Fish and Game staff, as well as members of the Kaweah Fly Fishers Club, your local sponsor and hear what other teachers have to say about their experiences with this program.
- A light dinner is included for all registered participants. Please attend this workshop and learn all about this wonderful opportunity. Past participating teachers are encouraged, but not required to attend.

In order to participate, if you are **new to this program, attendance is mandatory** in order to ensure the proper equipment is in place and is being used appropriately.

The following California Science Standards apply to this program:
Grade Four - 2 b, 3 a - 3 b, 6 a - c; Grade Five - 2 a, 6 a, 6 f-i; Grade Six - 5 a, c-e, 7 a-e
Grade Seven - 1 f, 5 a - b, 7 a; and Grade Eight - 6 a, 8 a, c, 9 a

PLEASE REGISTER BY OCTOBER 1, 2010.
