## **Tulare County Office of Education Announces: Tulare County Office of Education to Host Fifth Annual CyberQuest Media Festival**

Tulare County Office of Education is hosting its fifth annual CyberQuest and students across the county are sharpening their research and computers skills in order to participate. The competition is open to the public and will be held Saturday, November 23, from 8:30 a.m. until 4:00 p.m., at the Visalia Convention Center.

CyberQuest is a technology-based competition that gives teams of students in grades 3 - 12 the opportunity to consider complex issues, solve problems and communicate solutions. Students showcase their abilities to use skills essential to succeed in today's cyber-rich world. Teams gather information from the Internet, magazines, interviews, books, videos and other resources in order to research and develop recommendations for previously assigned issues. The recommendations are presented and evaluated by a panel of judges. Teams whose presentations are judged as the best in their respective categories are then awarded trophies.
